Yummy

Gwen Stefani

I?m feelin' yummy head to toe, you see me
Ain?t got no patience so let?s go, you see me
Look, I?m diet drama, wanna spend the night? Don?t bring pajamas
Man there?s so much heat beneath these clothes, you see me
Walk in the place, they know my face
Encore, sophomore, only one solo, I swore
Big mouth, applause, oh please one more
Wanna hear a bit before I say naw, let me check my itinerary
Umm alright, presto, skin tight, escaped and I risked my life
For what? So I can watch them bite?
Only one Gwen you can find like this
I mean blow your mind like this, your key won?t shine like this
If it's yours then you know it won?t wind like this, wind it up
I?m feelin' yummy head to toe, you see me
Ain?t got no patience so let?s go, you see me
Look, I?m diet drama, wanna spend the night? Don?t bring pajamas
Man there?s so much heat beneath these clothes, you see me
I know you?ve been waiting but I?ve been off making babies
And like a chef making donuts and pastries, it?s time to make you sweat
Sex and sugar is the flavor, ovens and beaters and graters
Beats made of bongos and shakers, it?s time to make you sweat
Come on, walk in the place, they know my face
Billionaire Boys, Ice Cream drippin' 'cross the floor
Big house, garage Bentleys, Ferrar
Wanna go before I say naw, let met check my itinerary
Umm alright, G4, G flight, bed in the back so I have a G night
Goodnight, hood right, ain?t no ***** you can find like this
I mean blow your mind like this, ***** watch don?t shine like this
If it?s ticking then it don?t tell time like this
I?m feelin' yummy head to toe, you see me
Ain?t got no patience so let?s go, you see me
Look, I?m diet drama, wanna spend the night? Don?t bring pajamas
Man there?s so much heat beneath these clothes, you see me
I know you?ve been waiting but I?ve been off making babies
And like a chef making donuts and pastries, it?s time to make you sweat
Sex and sugar is the flavor, ovens and beaters and graters
Beats made of bongos and shakers, it?s time to make you sweat, listen
Now sweat, baby get stupid, jump up, go crazy
L.A.M.B. in 3D, worldwide across your TV

P you crazy, how?d you get this? This sounds like disco Tetris
Do I have time to connect this? Let me check my itinerary, umm
I came back for my spotlight
(For her spotlight)
I disappeared like Houdini
(Where Houdini?)
If yours didn't come out right
(If it's not right)
Go to Kinkos and Xerox me
I?m feelin' yummy head to toe, you see me
Ain?t got no patience so let?s go, you see me
Look, I?m diet drama, wanna spend the night? Don?t bring pajamas
Man there?s so much heat beneath these clothes, you see me
I?m feelin' yummy head to toe, you see me
Ain?t got no patience so let?s go, you see me
Look, I?m diet drama, wanna spend the night? Don?t bring pajamas
Man there?s so much heat beneath these clothes, you see me
I know you?ve been waiting but I?ve been off making babies
And like a chef making donuts and pastries, it?s time to make you sweat
Sex and sugar is the flavor, ovens and beaters and graters
Beats made of bongos and shakers, it?s time to make you sweat
Yummy
