Lifted

TRITONAL/SOTO, CRISTINA

Don't be afraid when you walk through the dark
Just when you feel that your day fell apart
Stay strong keep holding on
Clear skies ahead and the dark day is done
Keep on lifted, keep on lifted
I wish you everything that you could want
Just when the day finds you turned back to front
Stay clear rescue is near
When you feel that you're drowned in despair
Keep on lifted, keep on lifted, hey
Keep on lifted, keep on lifted

Keep on lifted, keep on, keep on
Keep on lifted, what I said, what I said
What I say, what I say
Don't be afraid when you walk through the dark
Keep on lifted, you're a bird in the sky now baby
Keep on lifted, you're a bird in the sky
Keep on lifted, earthbound feet on the ground
Keep on lifted, now you can find peace at last
Keep on lifted, now you can find peace at last
Keep on lifted, now you can find peace at last
