

Salvation

KMFDM

I want to feel it, hold it in my hands
I want to see it with eyes of innocence
I want to hear it, touch it with my soul
Make me believe in the unbelievable This is the fail safe, point of no return
Abandon everything, all bridges have been burned
Eyes wide shut, succumb to free fall
Make me believe in the unbelievable Salvation come to me! Hallelujah!
Salvation carry me to the alter of my destiny! This is the fail safe, point of no return
Abandon everything, all bridges have been burned
Eyes wide shut, succumbing to free fall
Now I believe in the unbelievable I want to feel it, hold it in my hands
I want to see it with eyes of innocence
I want to hear it, touch it with my soul
Now I believe in the unbelievable Salvation come to me! Hallelujah!
Salvation deliver me, grant me immortality! That's the way of the world
Whatchu waiting for?
She has to be loved
Everybody needs somebody
Everybody needs love! Salvation come to me! Hallelujah!
Salvation carry me to the alter of my destiny! Salvation come to me! Hallelujah!
Salvation come to me, grant me immortality! Everybody needs somebody
Everybody needs love! That's the way of the world
Whatchu waiting for?
She has to be loved
Everybody needs somebody That's the way of the world
Whatchu waiting for?
She has to be loved
Everybody needs somebody
Everybody needs love!
