On My Knees

Triggerfinger

It's coming closer, the moment is here
For me to give up what I held so deer
It's time to pay, time to deliver
My knees are shaking, I'm trembling with fearToo late to hide, I can't run away
Impossible to fight, can't we pray?
To give me more time, I'm stuck in the new
That I'm selling my soul to the devil for youIt brings my loss, it brings my spleen
It brings my liver
It brings my heart, brings my head
Makes me shiverNo time to think, time to deliver
My knees are shaking, I'm trembling with fear
I'm on my, down on my kneesI'm on my, down on my knees
I'm on my, down on my knees
Down on my knees, down on my
Down on my knees, down on my knees
Down on my knees, down on my
