Waves

Marjorie Fair

Feels as if the things I thought about
Silly boy, you're off to what I thought about
In a way, the sun is setting on my side
But it's alright unless it's gone
Away from here for good[BRIDGE]
But it's so hard, watching you fade away
And it's too hard, watching you fade away[CHORUS]
These are the ways that I talked about, silly boy
Don't you forget about what I have said
These are the ways that I talked about, silly boy
Don't you forget about what I have said
It's all in your headThe person that I thought I was
Is something that I don't think is coming true
And to say things that surround me now
Are the same things that I seem to see right throughREPEAT BRIDGE AND CHORUS (x2)
