# The Naughty Song

## Cory Lee

Cory Lee - The Naughty SongGotta getch yah out of my mind
Gotta getch yah into my lifeI know that you're down by the way you're watching me
You take my words away and I can hardly speak
There's just room for two in my fantasy
So baby lose your crew and come away with meTurn down the lights and light up the party
I got the ride and you got the naughty
Leave your boys with my girls tonight
Come home with me, asap
Turn down the lights and light up the party
I got the time and you got the body
Leave your boys with my girls tonight
Come home with me, asapTonight's the night and it's only just begun
All the boys and the girls wanna f*** tonight
Gonna turn the naughty on
Tonight's the night and it's only just begun
All the boys and the girls wanna f*** tonight
Better turn the naughty onI like what you say by the way you rock your shoes
And the way you wear your smile got me really digging you
All this bump and grind makes everyone a freak
Let's get out of sight, baby run away with meTurn down the lights and light up the party
I got the ride and you got the naughty
Leave your boys with my girls tonight
Come home with me, asap
Turn down the lights and light up the party
I got the time and you got the body
Leave your boys with my girls tonight
Come home with me, asapTonight's the night and it's only just begun
All the boys and the girls wanna f*** tonight
So turn the naughty on
Tonight's the night and it's only just begun
All the boys and the girls wanna f*** tonight
So turn the naughty onGotta getch yah out of my mind
Gotta getch yah out of my head
Gotta getch yah into my life
Gotta getch yah in my bedGotta getch yah out of my mind
Gotta getch yah out of my head
Gotta getch yah into my life
Gotta getch yah in my bedTurn down the lights and light up the party
I got the ride and you got the naughty

Leave your boys with my girls tonight
Come home with me, asap
Tonight's the night and it's only just begun
All the boys and the girls wanna f*** tonight
Gotta turn the naughty on
Tonight's the night and it's only just begun
All the boys and the girls wanna f*** tonight
Better turn the naughty on
