5 Minutes

Ace Deuce

Five minutes in heaven
Is this all that we get? What a way to go
Five minutes in heaven
Breathe that scream into me, what a sad little showIt feels like love, not some rigged up holiday
Where I believe in somebody who can bring me down again
Feels like love, is this how you make me pay
Branding me with deep cuts that will never go away, never go away?Five minutes in heaven
Did you stage this yourself, every twist and turn?
Five minutes in heaven
What a masterpiece, hey will we ever learn?But it feels like love, not some rigged up holiday
I believe in somebody who can bring me down again
Feels like love, is this how you make me pay
Branding me with deep cuts that will never go away, never go away?
Never go away, hey, yeah, yeah, yeahFive minutes in heaven
Is this all that we get, just a shadow, just a screen?
Five minutes in heaven
Would you paint that smile made for me, just to wipe it clean?But it feels like love, not some rigged up holiday
I believe in somebody who can bring me down again
Feels like love, is this how you make me pay
Branding me with deep cuts that will never go away?Feels like love, not some rigged up holiday
Branding me with deep cuts that will never go away, never go away?
Never go away, never go away, never go away, never go away, away
