Can We Find a Way

Slaughter

Whatever happened to our innocence
I'm gonna find a quiet place inside
All I wanna do is break down the wall between us
And put an end to this foolish prideDon't ya hear by message of love
Don't ya know it comes from above
Can we find a way to shine an inner light
Can we find a way to make it work out rightWe should meditate a higher conscious
Listen in peace, in peace and harmony
All I wanna do, all I wanna do
Is brighten your darkest daysSo do you hear my message of love
Don't ya know it comes from above
Can we find a way to shine an inner light
Can we find a way to make it work out rightCan we find a way to let it shine, let it shine
Can we find a way to intensify your mind
I'll take your pain away and give you all of me
I'll let you in my world unconditionallyI see you in my dreams smiling in my mind
Whispering my name, let it shine, let it shine
