Riot Girl

Zebrahead

Here she comes, T-minus 3
Watch your back
Walk around the debris
Light the fuse
And if you're ready come on
She's my riot girl
Is it something that she
Might've just missed?
Is it something she can hit
With her fists?
Light the fuse
And if you're ready come
She's my riot girl
She's no steppingstone
She'll cut you to the bone
You're better off alone
When she's on
She's on
Whoa-oh-whoa-oh
She's no minor threat
She's no minor threat
She's been bruised and bled
Whoa-oh-whoa-oh
She's no minor threat
She's no minor threat
She says love is dead
Whoa-oh-whoa-oh
She's hanging on
By a thread
Take your crimes in stride
And commit
There she goes smoking TNT
Down the hatch
Call the L.A.P.D.
Either way, she wants to riot com on
She's my riot girl
Give her something and she'll try to resist
Give her something she'll just swing with her fists
Either way, she wants a riot come on

She's my riot girl
She's no steppingstone
She'll cut you to the bone
You're better off alone
When she's on

She's on
Whoa-oh-whoa-oh
She's no minor threat
She's no minor threat
She's been bruised and bled
Whoa-oh-whoa-oh
She's no minor threat
She's no minor threat
She says love is dead
Whoa-oh-whoa-oh
She's hanging on
By a thread
Take your crimes in stride
And commit
She's standing on the front line
Says she wants to light the fuse
Says that this is my life
It should be my right to choose
She only wants to burn it down
She wants to see them go, she don't need them
Send it right back into the ground
She says it's a violent world, a violent world
Leave you with all the bodies around
She's my riot girl
She's such a riot
She's no steppingstone
She'll cut you to the bone
You're better off alone
When she's on
She's on
Whoa-oh-whoa-oh
She's no minor threat
She's no minor threat
She's been bruised and bled
Whoa-oh-whoa-oh
She's no minor threat
She's no minor threat
She says love is dead
Whoa-oh-whoa-oh

She's hanging on
By a thread
Take your crimes in stride
And commit
