Turn Around

The Beau Brummels

When you got pissed the other day
I didn't mean to but I called you
By your best friends name
Well give me a break I said that I was playin'
And on your birthday Monday night
I didn't get you anything, I ran outta time
It's the thought that counts
Well that's what they say and
And I know that I passed out that night
When you got naked
But turn around
There's always something
Please calm down
And I will do anything
You've got me runnin' around
Can't get my feet on the ground
Turn around
I'll make it up to you today
When you walked home the other night
I didn't pick you up
I don't know how you slipped my mind
Well I'm sorry, can't you hear what I am sayin'?
You only walked five miles
Don't know why you're complainin'
Turn around
There's always something
Please calm down

And I will do anything
You've got me runnin' around
Can't get my feet on the ground
Turn around
I'll make it up to you today
And all those times, I should've lied and said, "You're right"
I stick my foot in my mouth all the time but that's the story of my life
Things aren't the same when you're not around
'Cause you're the only thing that I've been thinkin' about
Turn around
There's always something

Please calm down
And I will do anything
You've got me runnin' around
Can't get my feet on the ground
Turn around
I'll make it up to you
Turn around
There's always something
Please calm down
And I will do anything
You've got me runnin' around
Can't get my feet on the ground
Turn around
I'll make it up to you today
Today, today
