Fingerprints

Minipop

I'm no good at long goodbyes but, baby, I can learn
I wanna leave you with the kind of exit you deserve
So lock the room and let's turn off all the ringing phones
Why don't we make it, you and me? Yeah, me and you alone
See baby all I wanna do is leave my fingerprints on you
I wish we had more than tonight to do the things we wanna do
I gotta go soon as the sun says hello, goodbye, the moon
So baby, all I wanna do is leave my fingerprints on you
I wish I had the power to stop the ticking clocks
I wish I had a little more of every inch you've got
I'm waiting on the world to change so one day I'll see you again
But now I'll take what I can get, darlin', until then
See baby, all I wanna do is leave my fingerprints on you
I wish we had more than tonight to do the things we wanna do
I gotta go soon as the sun says hello, goodbye, the moon
So baby, all I wanna do is leave my fingerprints on you
I'm no good at long goodbyes but, baby, I can learn
I wanna leave you with the kind of exit you deserve
See baby, all I wanna do is leave my fingerprints on you
I wish we had more than tonight to do the things we wanna do
I gotta go soon as the sun says hello, goodbye, the moon
So baby, all I wanna do is leave my fingerprints on you
