

Up Periscope

Drake Bell

If I could have a single wish, I'd only wish to never miss it when you wake up and smile. It makes me happy when you steal a little kiss before you wake me up to listen to the news for a while and when you're creeping out of bed I sneak a peek to see just what you were wearing last night or what was leftover from ripping off your clothes I check to see that door was closed

as you were turning out the lights

Whoever said romance was over

roll over

so I can show you

don't you want me to be the captain of your submarine

Up Periscope

that's what I say

that's just my way

of saying that I love you (I do)

My life is like a bowl of cherries not so very ordinary overflowing with love, and I could never want for more unless our two became a four or maybe three if we practice it enough.

Whoever said romance was over

roll over

so I can show you

don't you want me to be the captain of your submarine

Up Periscope

that's what I say

that's just my way

of saying that I love you (I love you)

Now I know that life is hard

I know that love can break your heart

that's just the way that it is

well baby that's a load of smack

don't you know I've got your back

what's important is the way that we live

And like that way you like this song

because it makes you hum along and tap your foot

to the beat

well that's the way you make me feel

when we're doing it for real

I can feel it from my head to my feet

Whoever said romance was over

roll over

so I can give you one more change to believe

and hopefully see that I still want you
don't you want me to be the captain of your submarine
Up periscope
that's what I say
that's just my way of saying that I love you (I love you)
