I Got You

Joi Cardwell

In a cold world
In strange times
Unfriendly faces
And uncaring minds
Im so glad that
Youre here with me
To hold me tight
And let me beCause I got you
And you got me
And this is where I wanna be
We got us and
We got love
And for me well thats enough
I got You
I got you.On those cold nights
When I need love
A touch from you
Is all I want.
Well its clear now
Lifes trials are rough
But when it comes to you
Theres never enoughCause I got you
And you got me
And this is where I wanna be
We got us and
We got love
And for me well thats enough
I got you
I got you.Hold on to me
Ill catch you
When your life
Is falling free
Undeniable
Its indescribable
See what you mean
To meTrue love is without any boundariesI got you
I got you
I got you.
