

# White Lies (Jawster Remix)

Odesza

Let's go out on the street  
Let's go out on the street  
You take me away  
Faces, faces they fade  
Love, love, love stays  
Here, here I'll take you  
Cross my heart and hope to die  
If you ever catch me in a white lie  
I lay me down in the tall grass  
Tangled in the weeds in my messy bed  
If you come and you come  
Come and come and, if you, if you  
Let's go out on the street  
Bring me under the soil in the roots I toil  
Trying, crying, trying to show  
Break through watch as I grow
