Blazon Stone

Evertale

Like an hawk-eyed eagle, we're cruising on our raid
Our dogged pride will never fade
Born-free we're still sailing the seven stormy seas
No-one will force us to our knees
Stand tight, we'll fight the fear and pain
United force
Blazon Stone, Power and hope to the slave
Blazon Stone, A mascot to the tortured,
Blazon Stone
Break the chains of torment, madness causing pain
Can't be the fate that rules the game
Corruption, hate and treason are the evil we must fight
United we will stand the night
Stand tight, we'll fight the fear and pain
United force
Blazon Stone, Power and hope to the slave
Blazon Stone, A mascot to the tortured,
Blazon Stone
They demons our pride, blood on blood, we can't submit
We battle side by side, like a pounding ram that hits their head
Their manowar shall burn, Mr. Mortis reps his feed
The point of no return, slanderous lies we will defeat
Stand tight, we'll fight the fear and pain
United force
Blazon Stone, Power and hope to the slave
Blazon Stone, A mascot to the tortured,
Blazon Stone
