Complete Control

Tara Z

Complete control
Oh, don't you know?
Complete control
Oh, don't you know?
Complete controlOh, don't you know?
Complete control
Oh, don't you know?
Complete controlOh, no time to be wasted
Hangin' 'round with you
I've got better things to shoot for
And little time to doOh, can't you see I've got it
With no help from you
I've turned around, knocked you down
And burned the bridge from youI want control
I've got to get control
With no regrets, naturally
I want complete controlI want control
I've got to get control
With no regrets, naturally
I want complete controlOh, changes will be made
To keep control for good
I'll change the whole world
And everything around youAnd I don't need no help
And nothing from you
I'll get everything I want
You know, it will be trueI want control
I've got to get control
With no regrets, naturally
I want complete controlI want control
I've got to get control
With no regrets, naturally
I want complete controlControl
Now, I've got to get control
Control, control
Now, I've got to get control
[Incomprehensible]
1, 2, 3, 4Oh, no time to be wasted
Hangin' 'round with you
I've got better things to shoot for

And little time to doOh, can't you see I've got it
With no help from you
I've turned around and knocked you down
And burned the bridge from youI want control
I've got to get control
With no regrets, naturally
I want complete controlI want control
I've got to get control
With no regrets, naturally
I want complete controlOh, don't you know?
Complete control
Oh, don't you know?
Complete controlOh, don't you know?
Complete control
Oh, don't you know?
Complete control, no
