# Play

## Marian Hill

Boys, they always have their toys
They're making all the noise
they mess around
But they can't seem to stay
When something comes their way
They pick it up and play
They love it till they drop it but not you
You play but never games
You stay here all the sameAnd you can't keep from knocking on my door
You're chocolate on my tongue my drink when day is done
And I can't keep from knocking on your doorPlay me baby x2
You wanna play me baby
Play me baby
You wanna play me babyMen have money left to spend and lots of many friends
They learnt how to pretend they're having fun
Mature not over done
They're drinking till they're numb
They'll settle for the everyday
Not you, you party till its dawn
And hold me all day longAnd you can't keep from knocking on my door
You're chocolate on my tongue my drink when day is done
And I can't keep from knocking on your doorPlay me baby x2
You wanna play me baby
Play me baby
You wanna play me baby
Play me baby
You wanna play me baby
Play me baby
You wanna play me baby
