The Gifted Child

Jill Sobule

What a bright girl, what a beautiful girl
She's gonna be somebody someday
We'll take her to the best schools
She will be prodigy, nothing's gonna stand in her wayShe'll be what they raised her to be
Never had the opportunity
To fulfill their broken dreams
The gifted child, the gifted childWhat a good girl, an exceptional girl
She'll make some man real happy someday
She's gonna be her father's pride, the perfect bride
She won't make her mother's mistakeShe'll be what they raised her to be
It's a big responsibility
To fulfill their broken dreams
They'll live through her
Gifted child, the gifted child
Gifted child, the gifted child
