

Let the Bass Go

Snoop Dogg

People to people, party to place
Having the time of your life is all on your face
Hands in the sky, while snatch and catch in the vibe
We go uptown, downtown, that's how we ride! Get your strip mode, it's where we be at
It's the top dog, the top for drivin' the track
Let, let the bass move, let it go!
Bass, bass, move, let it go
Bass, bass, move, let it go
Bass, bass, move, let it go
Bass, bass, move, let it go Now I've see players, too many to name
Some gain recognition and even fame
Some go slow and some may go fast
But me and my partners we dip and we dash
Every flipping the cash, rip zipping the bag
Should be slip when we crash, all good never bad
All you never had, dreams do come true
For me and you, so let it do what it do! Boy, let me say, it's the ride of your life
And if you're rolling with me, I tell you, I'll do you right
So put your seat belt on, and let your hair hang low
And if you wet then I suggest you let it go! People to people, party to place
Having the time of your life is all on your face
Hands in the sky, while snatch and catch in the vibe
We go uptown, downtown, that's how we ride! Get your strip mode, it's where we be at
It's the top dog, the top for drivin' the track
Let, let the bass move, let it go!
Bass, bass, move, let it go
Bass, bass, move, let it go
Bass, bass, move, let it go
Bass, bass, move, let it go Ride, ride, roll it, tip it, advance it
Turn it, burn it, take it, adjust it!
We can bounce and ball, just tell me how you play
I never give up, I do this thing like everyday
And I break it down in her way
Oh man, I got carried away
But anyway I'mma say
I feel good everyday!
Every way, la, ta, ta
I'll make the beat go pa pa pa
The heat, stop the beat

Listen, attention, permission
'Cause this is grand thing bang, bang
Same range, change lane
Playing games, get you with you, flick it up, rich it up
I slip can't get with us
No matter what!
Next batter up
It's better not
That's what they ask
Come out the grass, so do it fast! People to people, party to place
Having the time of your life is all on your face
Hands in the sky, while snatch and catch in the vibe
We go uptown, downtown, that's how we ride! Get your strip mode, it's where we be at
It's the top dog, the top for drivin' the track
Let, let the bass move, let it go!
Bass, bass, move, let it go
Bass, bass, move, let it go
Bass, bass, move, let it go
Bass, bass, move, let it go
