Prisoner

311

Whoa oh prisoner
My pretty, oh oh prisonerA black ocean is the sky above
Tiny lights bob what star you fromTrapped in material plane
She wants to fly and they think she's insane
But she knows what she know
Give that girl wings and that's all she wroteTwilight zone, twilight zone
I'm floating in the dark alone and
Is there any love out here
Let me knowA laser lights
It was the top of my dome
Then through my body as if Scotty's
Beaming up a wayward soulMutant races in an ancient universe
Dark shadows humans rhymin' in a reggae verseIt's gone if you blink
I can see it as soon as you think it
Calls crystal balls, on sidewalk malls
Psychic people outdoors reading palmsI believe that you know more
To survive the dimension is fourOh oh prisoner
My pretty, oh oh prisonerLook at the way she's searching
Trapped in a world that's hurting
So bad it makes her cry
But I won't let her say goodbyeTwilight zone, twilight zone
I'm floating in the dark alone and
Is there any love out here
Let me knowTwilight zone, twilight zone
I'm floating in the dark alone and
Is there any love out here
Let me knowNo way, no way
