Future Shokk!

Sugababes

Future, future, future shokk
Future, future, future shokk
Future shokk, shokk, shokk
Let's go
I know you got the feeling
With you and I, together
We can hit the ceiling
But only if you come
With X amount of feeling
?Cause I don?t want a man
Who can't understand
(Get up, get up and jerk that body)
This is all about the future
Not a drop of water
For the wallflower
(Ooh)
Coming with that dirty
Funky, solar power
If you stay calm
Then ring the alarm
(Woo)
I just wanna see
All the people going crazy
Bugging out off key
To the melody
Without a doubt
This is an emergency
So scream and shout
Get up, get up and jerk that body
Bass line [unverified] sick or what?
(Bass line)
This got every one of us
(Oh, yeah)
Now twist it up
Hitting it with a future shokk
Don't wanna stop
This is an emergency
Show what you got
Get up, get up and jerk that body

Get up, get up and jerk that body
(Get up, get up and jerk that body)
Get up, get up and jerk that body
Get up, get up and jerk that body
(Get up, get up and jerk that body)
(Jerk that body)
Feeling something gets
A flush flowing through my mind
You gotta see these moves
This ain't no silly groove
Move your body to the bass
Don't let the rhythm die
(Future shokk)
Just keep it burning all night
There ain't nothing in this what I wouldn?t do
(Oh, no)
Just watch the crowd do what you wanna do
This hype is moving, it's grooving
You're choosing the person to
Get up and dance with you
I just wanna see
All the people going crazy
Bugging out off key
(Oh, yeah)
To the melody
Without a doubt
(Yeah)
This is an emergency
So scream and shout
Get up, get up and jerk that body
Bass line [unverified] sick or what?
This got every one of us
(Hey)
Now twist it up
Hitting it with a future shokk
(Ooh)
Don't wanna stop
This is an emergency
Show what you got
Get up, get up and jerk that body
Get up, get up and jerk that body
(Get up, get up and jerk that body)
Get up, get up and jerk that body
(Get up, get up and jerk that body)
Get up, get up and jerk that body

(Yeah)
(Get up, get up and jerk that body)
(Yeah)
What you fighting for?
No more gun and war
Makes you sick or what?
Everyone of us
(Ooh)
It's a future shokk
I don't ever wanna stop
Show me what you got
I'm ready to go
I know you got that feeling
You and I we could hit the ceiling
You and I and the wheels of steel and
Good omen, moments revealing
That funky solar power
Cool off and take that shower
You come now, ring the alarm
Head rush with that twisted charm, c?mon
I know you got the feeling
With you and I, together
We can hit the ceiling
But only if you come
With X amount of feeling
?Cause I don?t want a man
Who can't understand
(Get up, get up and jerk that body)
This is all about the future
Not a drop of water
For the wallflower
(Ooh)
Coming with that dirty
Funky, solar power
If you stay calm
Then ring the alarm
(Woo)
Bass line [unverified] sick or what?
This got every one of us
(Ooh)
Now twist it up
Hitting it with a future shokk
(Yeah, yeah)
Don't wanna stop
This is an emergency

(Yeah)
Show what you got
Get up, get up and jerk that body
I just wanna see
All the people going crazy
(Yeah, yeah)
Bugging out off key
(Ooh)
To the melody
Without a doubt
This is an emergency
(Without a doubt)
So scream and shout
(Without a doubt)
Get up, get up and jerk that body
(Just get up, get up and jerk that body)
Bass line [unverified] sick or what?
This got every one of us
(Ooh)
Now twist it up
Hitting it with a future shokk
(Yeah, yeah, yeah)
Don't wanna stop
This is an emergency

Get up, get up and jerk that body
Get up, get up and jerk that body
