

# Ironwill

## Skid Row

Life comes and goes, quick as does the day  
Greed, for those who know is just a step away  
Time's a breathing bomb, going with the flow  
Stand atop it all outside the status quo  
No see, no speak then know where you're goin'  
Drag your feet then nothing you're showin'  
Take your place or fall to the lions  
Lose your face and stand where you're dying  
Living in a hole is taking its toll  
My iron will's in position  
Seize you are not owed, stand or fall  
And refuse to be denied  
Pride is all in vain without the blood of need  
Bones can break in shame from taking charity  
Hide from all the hell and wash up with the tide  
Wait and you commit psychological suicide
