Race Against Time

GBH

Go!Yeah, life machine from the day we're born
Didn't realize it was just our dawn
By the media we've been accepted
In reality still rejectedSay from start and it won't last
Now that's all in the past
Never admit to being wrong
Five years on, we're going strongGiven a year to pack it up
Take the taking, run and hide
Said, "Race against time"
Thought it was clever
Time is immortal and we're foreverSay from start and it won't last
Now that's all in the past
Never admit to being wrong
Five years on, we're going strongSo five years on and we should be dead
New ideas, same old head
Don't need help, don't need a tutor
You're our past and we're your futureSay from start but it won't last
Now that's all in the past
Never admit to being wrong
Five years on, we're going strongIt's a race against time, but whose racing ?
It's a race against time, but whose racing ?
It's a race against time, but whose racing ?
It's a race against time, but whose racing ?We've already won
Bye, bye
