Cool Whip

Katy Rose

This song is called cool whip
I don't know whyI'm building you some bridges
So you can come and see me sometime
Trying to save the music
With peace and wineSo we'll make love and abuse it
It'll be better this timeFridges filled with spilled milk
From the 99Oh I never thought that I'd write a love song
But I guess I just wrote one
Never thought I was that kind of person
Well never been so wrongCause when I'm tired oh baby
You're my cocaine
And when I'm hot oh you
You are my rainThe days I'm crazy
Oh you make me sane
And when I'm crippled
You're my caneWell I never thought I'd write a love song
But I guess I just wrote one
Never thought I was that kind of person
I've never been so wrongNever thought I'd write a love song
Ooo yeah
I think I just wrote one
Never really considered myself that kind of person
but I, I tend to be wrong
