Fly or Dive

Compact Disco

Initially it was hard
and it's gonna hold you tight for life,
'coz when the tunes grab you hard
the rest won't be either very light,When a melody starts to form,
The deadliest love affair is born,
You do what you gotta do,
But in the end you will fly or dive.Bridge
You feel like it's just like a ride
in the sky to envy it,
It can bring you praise or disgust,
so you got to remember now:Chorus:
Music is hard love, but it's time to fly now, yeah - (it's time to fly now)
Music is hard love, but it's time to fly now, yeah - (it's time to fly)This is something you can't stop
even when really trying hard,
a burden that spans through time,
there's no judge here for you to discardWhen a melody starts to form,
The deadliest love affair is born,
You do what you gotta do,
But in the end you will fly or dive.Bridge
You feel like it's just like a ride...
