Fata Morgana

Drehwerk

Morrigan you come again
Morgan La Fay, raven on my sill of frost
Far away from the sea of the setting sun
Island of fire and albatrossTaught so well magic Merlin the wizard
Maiden of beauty dressed in rainbow, come to meDamon girl, daughter of Saul
Queen of the underworld, she'll have us all
Damon girl, foul temptress of lust
Peasants to kings your heart surely turn to dustDamian, she's the mortal of man
Lives in your dreams in darkness
Reaches out her hand, come to meFata Morgana, she will take you
Hungry scarred harlot hunting another heart
Morrigan, fallen angel, queen of magic
Kneeling at the widows altar, temptress of my
She's the widow of my dreamsFar beyond the realm of dream
Your wildest dream ascend to the plane
An imaginary game to play
Past the golden pillars of the lore to LemuriaImagine your queen, take her, she's yours
Damian upon her throne mirrored mirage
Of your desire, of my desire, passion slave
Her life I gave, jump into her fire
