Surfing With A Spoon

Midnight Oil

Well, you knew from the start
That a one way loving wouldn't last
You think I'm moving slowly, girl
I tell you, you're moving way too fast
Working in the city from nine to five
Traffic on the highway gonna blow my mind
Surfing with a spoon all the rest of the time
Oh yeah, all the rest of the time
You better find your way without me
'Cause I'm heading for the coast in June
Don't talk about me when I'm gone
You know I couldn't leave too soon
I'm back in town, you're still around
I guess I'll have to stay away
I'm going up north where the weather's fine
And I'm living it from day to day
