A Lover's Complaint

The Getaway Plan

Last night I came in to
Your room watched over you
I cut all of our ties
All I could think to myself wasHow could you be so faithlessToday when I came to
I woke up next to you
You asked if I was lost
All I could think to myself wasThat I know we'll be just fine
But, how could you be so faithless?And when it all falls through
I'll be there next to you
The candle in my heart
Is burning brightly but...I know we'll be just fine
But how could you be?
Yes how could you be?
How could you be?Cause when the damage has all been done
And you've gone and had your way
It's true, you know I'll still be thinking of you
It's true, you know I'll still be there for youCause I know we'll be just fine
Yeah I know we'll be just fine
I know we'll be just fine
But how could you be?
Yes how could you be?
How could you be?So faithless...
