You're the One

Natalie

You're the one that I'm always gonna love
And you're the one that I'm always thinking of
It's so wonderful to know, beautiful to know
You're the oneYou're the one that I'm always gonna love
And you're the one that I'm always thinking of
It's so wonderful to know, beautiful to know
You're the oneI remember the first time
That I really looked you in your eyes
I was thinking to myself
There will never be nobody else, yeahAnd from the moment that we touched
You had me wide open with your love
The simple way you grabbed my hand
I'm so greatful that you are my man, yeahI never wanna lose you
I'd do anything at all
Baby boy, you know I really do need you
I'm always here when you callYou're the one that I'm always gonna love
And you're the one that I'm always thinking of
It's so wonderful to know, beautiful to know
You're the oneYou're the one that I'm always gonna love
And you're the one that I'm always thinking of
It's so wonderful to know, beautiful to know
You're the oneNow my whole life has changed
Since you came around boy, it's so great
The way you make me feel within
I'm so thankful that we're more then friends, yeahAnd when you hold me, it's so real
Remember when you told me how you feel
Staring face to face
It's such a blessing, I'll do what it takes yeahWhat it takes to keep you
I never wanna let you go
Baby boy, you know I can't be here without you
I cherish every day we growYou're the one that I'm always gonna love
And you're the one that I'm always thinking of
It's so wonderful to know, beautiful to know
You're the oneYou're the one that I'm always gonna love
And you're the one that I'm always thinking of
It's so wonderful to know, beautiful to know
You're the oneI can't wait to be
Alone with you, close to you
I just wanna say

With you around I feel okayYou make my life complete
I'm telling you, I'm needing you
I can't wait to be
Alone with you, close to youYou're the one that I'm always gonna love
And you're the one that I'm always thinking of
It's so wonderful to know, beautiful to know
You're the oneYou're the one that I'm always gonna love
And you're the one that I'm always thinking of
It's so wonderful to know, beautiful to know
You're the one
