

Friends

Kingdom Come

You feel the way I do
Love has changed its course
Crashed upon the shore
I can see it in your eyes
I can feel the hurt
Far beyond the word good bye[Chorus:]
Now that it's over
Now that we're at the end
Can we start over
Back to when we were friends Love, more than just your touch
More than just a word
Many times it hurts
I believe in you and I
Think I've found a way,
We can stand the test of time[Chorus:Repeat 3X]]
