# Henry Hammers Harder

## Knapsack

Well Henry hammers harder than the rest
He puts his daughters to the test
He says I'm trying to do my best
In this much he has confessed
Well the love lines with the rest
The love lines will protest for henry
And Henry hammers down
Well they can't live without him
Well Henry swings the hate that he misplaced
The conspirators can't face him
While they're plotting to replace him
In his mind they have confessed
Well that the love lines with the rest
The love lines will protest for henry
And Henry hammers down
Well they can't live without him
And he's standing alone
In a room of his remorse he waits alone
And he's standing alone
With this wilt he has formed
He waits alone, he waits alone
And Henry hammers down
Swears at this whole town
They can't live without him
