Pills

New York Dolls

As I was lyin' in a hospital bed
A rock 'n' roll nurse goin' into my head
She says, "Hold ya arm boys or stick out ya tongues
I got some pills I'm gonna give you somes"She went into my head, into my head
A rock 'n' roll nurse, goin' into my head
Into my head, into my head
While I was lyin' in a hospital bedA little pill for my legs but that didn't ache
I tried some pills for my heart but a little to late
Got some pills for my love to try to get me at ease
When a rock 'n' roll nurse shook me down to my kneesShe went into my head, shoved into my head
A rock 'n' roll nurse goin' into my head
Into my head, into my head
As I was lyin' in a hospital bedI got the rock 'n' roll nurseNursey nursey, well I don't see
And I can't understand what you're doin' to me
Said you give me the pills, then you give me the shot
You got me wonderin' what is worse I gotShe went into my head, shoved into my head
A rock 'n' roll nurse goin' into my head
Into my head, into my head
As I was lyin' in a hospital bedI got the rock 'n' roll nurse, she's makin' it worse
Keep's on shootin' it right on to my headDoctor, doctor, doctor, run here and see
I don't think the job the nurse givin' me
Gives me the shots, gives me the pills
Got me takin' this junk against my willsShe went into my head, shoved into my head
A rock 'n' roll nurse goin' into my head
Into my head, into my head
As I was lyin' in a hospital bed, and doctor
