I Almost Called Your Name

Freddy Fender

We where dancing
When she asked
Just like you used to
She touched my hand
And held me
Just like you used to

And so close, to my lips
The words came, that I almost
I almost called your name

Yes I almost called
I almost called your name
In so many way's
You are both the same
The only difference, in the two
Is that I still love you
Yes I kiss't her, but
I almost called your name

Yes I kiss't her, but
I almost called your name
