Here We Go Again

Mint Condition

We were really in love before
That's when our hearts soared
Faster than we had ever imagined
This time we'll take it slow
We'll let our love grow and I know
We'll make it happen, my babyBy one compatible
Your supernatural
It's kinda unbelievable
That here we are together againNever thought that we would be together
Here we go again
Here we go again, no
If we hold on love will last forever
Here we go again
Here we go againFriends for so long with me, you know you are all right
Oh baby, you read my mind and said, "Let's make sweet love tonight"
And I'm gonna do it, take you on a trip aboard a special ship
Called the 'Escapade of Love', love-love
Your love gives me a lift because you've got that gift
All I want to do is compliment because because you turn me onBy one compatiable
Your supernatural
It's kinda unbelievable
That here we are together againI never thought that we would be together
Here we go again
Here we go again
If we hold on love will last forever
Here we go again
Here we go againHere we go again, no
Here we go again, no, no
Here we go again, no
Here we go againHere we go
Here we go
Here we go
Here we goBy one compatiable
Your supernatural
It's kinda unbelievable
That here we are together againNever thought that we would be together
Here we go again
Here we go again
If we hold on love will last forever

Here we go again
Here we go againNever thought that I
Here we go again
If I hold on
If I hold on
Here we go again
Here we go againNever thought that we would be together
Here we go again
If we hold on love will last forever
Here we go again
Here we go againHere we go again, no
Here we go again, no, no
Here we go again, no
Here we go again, no, noHere we go again, no
Here we go again, no, no
Here we go again, no
Here we go again, no, no
