I Hate California

State Shirt

It's not over
Over is the day you give upNot unlike three leaf clover
Unlucky until you give it thought.
I will never be sober
I'll leave before you can helpIt's not over
Over is the day you give upEvery day is another day my parents get older.
Every day is another day I will not see my friends.
Every day is another day wasted breathing smog.It's not over
Over is the day you give upA long time to wait
To not get any closer
