All I want is a little respect
All I need is a little respect
Ha, oh, ooh
Have you ever had a girl to call up your man
(Better tell her, step back, step back)
She claimin' that your man is her man
(Gonna get her wig knocked way back)
But you gotta act right and not lady like now
(I'm a lover, not a fighter)
But if she keep on disrespectin' I might just
(She violate, I got the right to strike her)
Yeah, come up out of these heels
(These heels)
Take and pull my hair back
(My hair back)
I know, I need to chill
(All)
All I want is a little respect
(Respect)
Ladies know how it feels
(Oh oh)
When another girl violates that
(That's right)
Know when it's my man ya'll
You better tell that girl to step
Step back, step back
Step back, step back
Tell that girl to step
Step back, step back
Step back, step back
You know them type of chicks that walk by
(Better tell her keep on walkin')
Twist to the side to catch your man's eye
(Turn around to see if he watchin')
Those them type of girls you set straight
(Yeah)
(If you don't they will keep walkin')
But you better shut her down before it's too late now
(Come on)

(Tell her she don't want no problems)
Yeah
(Yeah)
Come up out of these heels
(These heels)
Take and pull my hair back
(My hair back)
I know I need to chill
All I want is a little respect
(Respect)
Ladies know how it feels
(All my ladies know how it feels)
When another girl violates that
Know when it's my man ya'll
You better tell that girl to step
(Say what)
I am not the one to be played with
Tell that girl to step
(Step back)
I ain't got no time for the bull shhh
You should learn some respect
(I think you need to learn some respect)
'Cause if a girl came clockin' your man
You wouldn't like that
(Oh no, oh)
I'm not one to go and start fights
(I'm not one to go and start fights)
(I'm not the type)
You gotta cop your own
Cause this one is mine
Whoa, whoa, whoa, yeah
Come up out of these heels
(Oh no)
Take and pull my hair back
(Oh no)
I know I need to chill
All I want is a little respect
(Some respect)
Ladies know how it feels
(Hey)

You better tell that girl to step
(Oh oh)

You better tell that girl to step
All I want is a little respect
