# War

## Judas Priest

We come in all that glory now
No prayers suffice such evil foe
Black wings, the storm is gathering and time will say
We know the power of heresy is on it's way
Gods of war
Heed their warning
Gods of war
They are coming now
No man can quell the suffering
The hell and all the grief it brings
Our life is almost over, now there's nothing more
We feel the pain is everywhere, it comes and roars
Gods of war
Judge and jury
Gods of war
Pain and fury now
We must hold this sweat from such panic yet
There will come a time when we'll be saved
Our resilient heart to confound defeat, yeah
Out of purgatory unto victory
We shall overcome the war they staged
Through unyielding power
In this darkest hour they will retreat
Gods of war
Devastation
Gods of war
End creation now
