Hit the Road

Chresten

She looks so beautiful with the top down
Let's jump inside and take a trip to town
(Let's hit the road)
Let's make some miles and save a little time
(And go to town)
And when we get there we'll stop our only dime
Let's hit the road and go to town
Let's hit the road and go to town
Out on the freeway it's the middle of the commute
Bumper to bumper in a giant cloud of fumes
(Let's hit the road)
From city to city everyone is on the move
(And go to town)
Try to find the energy to stay in the groove
Let's hit the road and go to town
Let's hit the road and go to town
When I'm rolling on those big round wheels
Puts me in heaven that's exactly how I feel
Just jump inside and turn the key
Your satisfaction is guaranteed
Let's hit the road and go to town
Let's hit the road and go to town
Someone's tryin' to find the peoples fuel
No fear of failure for that crazy fool
Let's hit the road and go to town
Let's hit the road and go to town
Let's hit the road and go to town
