Watermelon Sugar

The Robot Ate Me

I saw you in the statue of mirrors
You were re arranging your bangs and your curls
I saw you in the house of spirits
You were fixing a scarf tightly round your neckIf you want to have a picnic
I'll bring the watermelon and a bottle of wine
If you want to go to beach
I'll bring the towels and we'll waste all our time
If you want to fly
I'll bring you string and line to hang fromI saw you leaving the airport
I wished I'd said something right
You know that there's only so much time
Our love was slackedIf you want to have a picnic
Ill bring the watermelon and a bottle of wine
If you want to go to the beach
I'll bring the towels and we'll waste all our time
If you want to fly
I'll bring you string and line to hang from
