# Ghost

## Varsity Fanclub

All the memories in pieces scattered on the floor
Had an argument that ended bad once more
All the misery and crying, I'm sick of trying
(To make you happy)
I don't wanna be why you leave
I just wanna be what you need
And I wanna see what you see
Since you walked away from this here
See I got nowhere to go and I just can't be alone
(This is my last chance)
'Cause I can't see baby down with someone else
(This is my last chance)
Every time I hurt you, I was hurting myself
Every time I hit it, hit it
You would always quit it, quit it
Got nothing left of my heart
Just a ghost in me
I don't recognize these feelings anymore
What happened to the future that was in store
I'm all hung up on lying, I'm sick of fighting
(I'll make you happy)
I don't wanna be why you leave
I just wanna be what you need
And I wanna see what you see
Why'd you walk away from this here
I got nowhere to go and I just can't be alone
(This is my last chance)
'Cause I can't see baby down with someone else
(This is my last chance)
Every time I hurt you, I was hurting myself
Every time I hit it, hit it
You would always quit it, quit it
Got nothing left of my heart
Just a ghost in me

(This is my last chance)
'Cause I can't see baby down with someone else
(This is my last chance)
Every time I hurt you, I was hurting myself

Every time I hit it, hit it
You would always quit it, quit it
Got nothing left of my heart
Just a ghost in me
I went and let my girl down
(And I'm so, so sorry)
You caught me on the rebound
(Baby)
It's my time to be real
To you
(To you, to you)
There's a ghost inside of me
(This is my last chance)
'Cause I can't see baby down with someone else
(This is my last chance)
Every time I hurt you, I was hurting myself
Every time I hit it, hit it
You would always quit it, quit it
Got nothing left of my heart
Just a ghost in me
(This is my last chance)
'Cause I can't see baby down with someone else
(This is my last chance)
Every time I hurt you, I was hurting myself
Every time I hit it, hit it
You would always quit it, quit it
Got nothing left of my heart
Just a ghost in me
