Love Me Like You Want

Amanda Overmyer

Pretty pretty boy I see youre out tonight
Whats a piece like you doing on my side of the tracks?
You aint never going back
Lovely lace and leather can tempt you to sin
But fill it with a woman cold and calloused as me
Please, youll drop to your kneesOh love me like you want to
Love me hey daddy
Cause your right in my grove
Love me like you want to
Cause your right your right your right in my groveOh here kitty kitty
I wont bite dont be scared
Just give me one night
When youre thinking about tomorrow
Youll never want to leave
So can I tempt you baby, tempt you baby?
Not thinking about love or just one night
But somewhere in the middle will be alright
So just try to take a wild step on my sideOh love me like you want to
Love me hey daddy
Cause your right in my grove
Love me like you want to
Cause your right your right your right in my grovePlace apart the mysteries that youve been told
Fiction is entertaining but always so cold
I want to fell my way thought your mind
Kiss me once and youll get high
Kiss me twice youll paralyzeLove me live you want baby
Come on get it on with me
Breaking through my style baby
Crossing that line
Making everything about you
Your right in my groveOh love me like you want to
Love me hey daddy
Cause your right in my grove
Love me like you want to
Cause your right your right your right in my groveOh love me like you want to
Love me hey daddy
Cause your right in my grove
Love me like you want to
Cause your right your right your right your right your right your right your rightOh love me like you want to

Love me hey daddy
Cause your right in my grove
Love me like you want to
Cause your right your right your right your right your right your right your right
