Just Passing Through

Nothing Rhymes With Orange

Verse 1:
I can hear that rooster crowing down the road, I felt my eyes open up real slow and I looked around making sure I hadn't checked out. Because there was an angel lying next to me and I figured heavens where I must be oh but it was you and baby what else could I do. In that bed I said a little prayer for one more day I'm still here.
Chorus:
It's your world and I'm just in it, ain't no other way to spin it. Lucky me, just being there when I get to hold you. I'm just here to love you girl, it's your world, and I'm just passing through.

Verse 2:
I dig in my heals and try to slow this down, I want my life to revolve around everything you do, aw but that's all up to you. Everything good seems to go so fast it's like one big party crash, you weren't counting on one day you're here and gone, baby all I wanna do is lay here and hope it don't disappear.
Chorus:
It's your world and I'm just in it, ain't no other way to spin it. Lucky me, just being there when I get to hold you. I'm just here to love you girl, it's your world, and I'm just passing through. X2
