Dreamwork

Kill Paradise

It must have been like an hour or two
That I've been staring at you
Such a pretty face
One I cannot erase
I just don't know what to doI've never dreamt the dreams I'm dreaming now
I feel like kissing you
Pushing back your pretty hair and placing it behind your ear
I'm downtown dreaming with you(Chorus)
And man I feel like, I feel like I can reach the sky
Oh I just grab you when I know it's right tonight
And just dance the night away
Just go what you say
And now I don't feel the pressure and
Now I just need a refresher
Oh and you, and you, just do what you do
(chorus end)I'm might've been too shy (shy shy shy.)
I'm not that type of guy
To risk everything it's only the first night (night night night)
Or should I do it man I think I'll be alrightAnd it started in the first grade
What have I become?
You can drink your cherry sparkle
I'll just drink my rum
Debate if I'ma take you now
The night is very young
I hope that you had fun
(repeat chorus)I can hide forever
Your beauty is a treasure
I can hide forever from you
You know that you can make me better
By smiling in your sweater
I'll open every letter from youOh your eyes tonight,
Like they'll make me fall in love
And your smile tonight,
It's like an angel from above
And I feel so high
It's like I'm dancing with the devil
I'm in love
I think that I'm in love(chorus)
