Chancer

Throwing Shade

what you need is to take a chance
dancin' days are a thing of the past
mix it up and make her go
Just to let her know
This is the night
to let it show
and if your feelin' wounded
don't waste the time move right away
'cause fallin' down isn't that far to go
Just to let her know
(hey now, hey now, take it to the other side)
You don't look so cool
but you look so alive
so alive
so oh oh oh oh oh oh oh alive
(hey now, hey now take it to the other side)
you don't look so cool but you look so alive
so alive
so oh oh oh alive

What you need is to take a chance
dancin' days are a thing of the past
mix it up and make her go
just to let her know
This is the night
to let it show
wave her down on the dance floor
you can't keep movin' anymore
just scream out loud
and we'll all see your pain
we all feel the same
(hey now, hey now, take it to the other side)
You don't look so cool
but you look so alive
so alive
so oh oh oh oh oh oh oh alive
(hey now, hey now take it to the other side)
you don't look so cool but you look so alive
so alive

so oh oh oh alive
