Blind Breeding the Blind

Militia

Condescending futile minds each another
Despondent waste in society
Elimination an attempt to redefine
A master plan altered by greed
A biased opinionated sore
On the faces of all a receding mental bore
A malignancy of such beyond a cure
A never ending circle parallel in mind
To end with time all seems so obsurd
Destitution grim demise
The faltering of a system forced to bleed
Disintegration an elusive pacifier
Too blind to see the way they've bred society
I can't believe the life you teach
The words you preach
Hypocrisy leading to your demise
Corruption fills your world of hate
For all who do not fall
Exposing your warped mind of lies
