Lead the Way

Consumed

I'm on a roll, I'm back in the seat,
my feet on the ground, it's so complete.
Take my hand and lead the way.
Pull me through, 'cause I'm with you.
Will you miss me when I go away?
Will you miss me when I'm far away?
And you say:
chorus:
I will be thinking about you.
I've still got that picture of you,
back when we went with each other.
If there was another way, fact is I would stay.
No other way.
Got to do what you do,
I'll never stop loving you.
Runaway, don't run away.
chorus.
Will you miss me when I go away?
Will you iss me when I'm far away? (2x)
(How I need to see this place. How I long to see her face)
When I'm far away (2x)
