Nothings Real

3 Pill Morning

What did you say?
Speak your words so softly
I hear the way you breathe
Then you sigh, look away
And you burn your eyes through me

Lay awake again
This time, we could change a little
Common sense, tell me what to steal
So I can face you

[x2]
Nothing's real, nothing's right
I came alive the day I found you
Nothing's real, nothing's right
I swear that I, I will love you

And now you say
Don't stop 'til it's over
It's easier to push back and relax
You did your job of toying with me

Don't cross the line too far
I know where you are
Get the feel of breaking your wall down
Well, I bet that breaks you

[x2]
Nothing's real, nothing's right
I came alive the day I found you
Nothing's real, nothing's right
I swear that I, I will love you

You can say it's turning over
You can save me, I will show you

[x2]
Nothing's real, nothing's right
I came alive the day I found you
Nothing's real, nothing's right

I swear that I, I will love you

(I'm right here)
I will love you
(I'm right here)
I will love you
