Voice Inside My Head

Dixie Chicks

I was only a kid
When I said goodbye to you
Ten summers ago
But it feels like yesterdayLost, scared and alone
Nothin' I could give to you
I tried, I really did
But I couldn't find another wayAnd I want, I need
Somehow to believe
In the choice I've made
Am I better off this way?I can hear the voice inside my head
Sayin' you should be with me instead
Every time I'm feelin' down, I wonder
What would it be like with you around?So I, I made my way
Cold and roaming in the wild
I'm forever changed
By someone I never knewI've, I've got a place
I've got a husband and a child
But I'll never forget
What I've given up in youAnd I want, I need
Somehow to believe
In the choice I've made
Am I better off this way?I can hear the voice inside my head
Sayin' you should be with me instead
Every time I'm feelin' down, I wonder
What would it be like with you around?And I want, I need
Somehow to believe
In the choice I've made
Am I better off this way?I can hear the voice inside my head
Sayin' you should be with me instead
Every time I'm feelin' down, I wonder
What would it be like with you around?
What would it be like with you around?
What would I be like with you around?
