Me and You

One Way System

we have the right to know what's wrong
we wanna know what's going on
ain't seen the place that they've seen
ain't been the places that they've beenme me me me me and you
me me me me me and you, me and youyou know you never stood a chance
we don't even know how to dance
we're only playing a game
but we always get the blame
we only wanna be
we just wanna be free
we just wanna be ourselves
so don't leave us on the shelves
