Looking Around

Nukleo

Lookin' around me
There's not so much in life I miss
Things that I can't see
I'll touch and I'll feel then I'll kissThen I saw you standin' there
With a smile I couldn't share
Just lookin' around everywhereTunes that I can't hear
Would take me for a while my smile
Fares that are too dear
I'd rather walk out another mileThen I heard a tune so right
It was in the dark of night
Just listenin' around everywhereAll the things I've wanted to do
Take so much time to get around to you
Just reach out and catch and hold on
Leavin' trails of dust and lust
Never even lyin' or tryin', keep on movin', never dyin'Smiles that I don't see
I'll make them up as I go on
Laughs that just can't be
I'll make and laugh at every oneThen I saw you in your place
With a laugh upon your face
Just lookin' around everywhereAll the things I've wanted to do
Take so much time to get around to you
Just reach out and catch and hold on
Leavin' trails of dust and lust
Never even lyin' or tryin', keep on movin', never dyin'Looking around
With my feet on the ground
Full of words and of sound
Bringing smiles all aroundSatisfy me
With your words that can be
Full of sound and I'll see
I'm just lookin' around
